The Maryland Department of Agriculture (MDA) is announcing a request for proposals (RFP) for projects to be funded under the Spay and Neuter Grants Program (the Program). 2. May target feral cat populations if the department determines that this targeting does not violate local law;
3. Shall efficiently and effectively facilitate and promote the provision of spay and neuter services for cats and dogs; and
4. May include public education and outreach components.

Eligible Applicants: The Program is open to government animal control and care facilities and shelters or non-profit animal welfare organizations with 501(c)(3) status.

- (1) The Department will rank eligible applications and select for funding those that most effectively and efficiently achieve the purpose of the Fund.
- (2) In determining which projects to fund, the Department will consider:
 - (a) How low-income communities and populations are targeted and how the goal of reaching those communities and populations will be accomplished;
 - (b) How well the project proposal identifies and assesses the need for additional spay and neuter services in the targeted community or population, and how effectively and efficiently the project will meet that need;

(c) Whether or not the project violates local laws; including but not limited to local laws regarding feral cat populations;

(d) How the project proposal identifies and meets the need to promote spay/neuter services to the targeted population or community through education and outreach;

(f) The expected project results relative to the amount of funds requested; and
